Missouri Department
of Natural Resources
Division of State Parks

2008 Year-End Summary

The Missouri Department of Natural Resources' Division of State Parks administers Missouri's state park system, which preserves the state's most outstanding natural landscapes and cultural landmarks and provides opportunities for recreation. The following are major accomplishments for 2008.

The land along the Current River was officially transferred from the Missouri Department of Conservation to the Department of Natural Resources to develop **Current River State Park.** The planning process for the park has begun and the department hopes to have the major part of the park open by 2010.

The department acquired 40 acres of property in Bates County that are associated with a significant Civil War milestone. The skirmish or **"Battle of Island Mound"** was the first time black soldiers engaged in combat during the Civil War. The property includes the location of the bivouac area at a farm the soldiers called "Fort Africa." The department plans to dedicate the property on Oct. 29, 2012, the 150th anniversary of the battle.

Don Robinson, a Jefferson County businessman, announced that he will leave his estate to the department after his death. The estate includes **843 acres of land** and a trust fund to help maintain the area once it becomes a state park.

Following the official signing of the consent judgment with AmerenUE over the 2005 Taum Sauk reservoir breach, redevelopment continued at **Johnson's Shut-Ins State Park.** The department plans to reopen the park sometime in 2009. During 2008, the shut-ins area of the park was open to the public from June 19 through Aug. 24 with 42,103 people visiting.

Survey work and planning and design details continued for the new trail along the old Rock Island Railroad from Windsor to Pleasant Hill. The new **Rock Island-Katy Connector** will connect Katy Trail State Park at Windsor to the Kansas City area. The trail license for this trail and funds to construct the trail were part of the Taum Sauk settlement agreement.

The department's Division of State Parks established an **urban office** at the Discovery Center in Kansas City. The office will model the creation of a similar office in St. Louis. The offices are intended to elevate the visibility and programs offered to urban audiences and seek opportunities to contribute to the growth and enrichment of families and youth in these cities.

A campaign called **"Get Out and Play"** was launched to find ways to help children reconnect with nature and the outdoors. This campaign to combat "nature deficit disorder" will continue in the state park system for several years.

The **visioning process** continued with several internal meetings and a compilation of comments from the public. The idea behind the process is to look ahead to challenges and trends that might be facing the state park system in the future and determine how to address them. A final report is being compiled.

The state park system once again received high marks for satisfaction from visitors. Based on feedback gathered through guest comment cards distributed by state parks and historic sites, **overall visitor satisfaction** in 2008 was 99 percent, up 2 percent from 2007. A total of 3,931 guest comment cards were received from Missouri, 47 other states and eight countries.

Through the **Volunteer in Parks (VIP)** program, 2,530 volunteers contributed 188,363 hours to the state park system. This included 323 campground hosts, who contributed 159,131 hours.

With the discovery of **emerald ash borer** in trees in Wayne County, the department launched its proactive campaign with other state and federal agencies to limit the spread of this exotic beetle that has killed more than 50 million ash trees in the northern United States. Federal and state quarantines on the movement of firewood in Wayne County led to new restrictions on firewood for Lake Wappapello and Sam A. Baker state parks.

The state park system had an enhanced presence at the **Missouri State Fair,** with almost 150 employees providing programs, exhibits and a retail store for the fair. More than 24,000 people toured the department's building during the fair.

Katy Trail State Park was inducted into the national Rail-Trail Hall of Fame, a program established by the national Rails-to-Trails Conservancy to recognize exemplary rail-trail projects. Katy Trail was the second in the nation to be chosen for this recognition.

Numerous state parks and historic sites throughout the state were damaged and closed repeatedly by various **weather-related events** including flooding, ice storms and wind storms. Division crews and staff responded quickly to minimize disruption of service to the public and protect natural and cultural resources.

Approximately 60 **informational meetings** and open houses were held at state parks and historic sites. These meetings are held annually for each park and site to provide visitors with opportunities to have input on facilities and services. More than 900 people attended these meetings.

This year's **passport program** was a photo contest with certain themes for each month. More than 300 entries were collected for the contest in 2008.

Find the Director, which provides clues of which state park or historic site the director is in, continued to be very popular. More than 1,200 entries were submitted for the program, which was a feature of the State Park eFriends electronic newsletter. Each month's winner received two free nights of camping.

In 2008, 493 campers received **Missouri Camper Awards** for camping in five Missouri state park campgrounds during the calendar year. Of those, 791 were first-year awards; two were 15-year awards; and one was a 30-year award.

More than 500 participates attended **WOW Outdoor Recreation and Conservation Schools** in St. Louis, Kansas City and Roaring River State Park at Cassville.

A partnership through the St. Louis Area Office with the Green Center was developed to provide day camp experiences for **urban youth** in the St. Louis area. The program, called Show-Me SASE (Summer Arts and Science Experience), involved trips to various state parks and other public recreation facilities. At the Kansas City Area Office, staff was involved in developing a program called Wheels Can Take Me Places, an effort to get students connected with the outdoors through biking activities.

To reach regular park users and attract new visitors, the division **staffed exhibits** at eight trade shows, including ones in Kansas City, St. Louis, St. Joseph, Columbia and for the Missouri Parks and Recreation Association and Equine Council Show.

More than 310 people from 22 states participated in the eighth annual **Katy Trail Ride** in June.

This year marked the sixth year of the **centralized campground reservation system**. More than 58,500 sites/units were reserved in 2008, which is down 2,600 from 2007. Flooding events and other weather-related events during the year affected usage at 14 different state park campgrounds, which may be reflected in usage numbers. Of the total campsites reserved, 77.3 percent were reserved by Missourians. According to guest comment cards, there was an 86 percent satisfaction level with the reservation system, an increase of 2 percent from 2007.

The division's **Web site** increased to 6,881 pages and received more than 13 million hits.

The public could receive information through e-mail and mail requests and the division's toll-free number. The division responded to more than 1,645 e-mail requests and more than 100 written requests. The division received almost 39,250 automated toll free calls and responded to 13,563 operator-assisted calls.

Staff training was held for the new **Leave No Trace** policy. Leave No Trace is a national educational program established to teach principles for avoiding or minimizing impacts to natural resources.

Nine communities received $543,498 to assist with park and recreation needs through the federal Land and Water Conservation Fund. Seventeen projects for trail-related construction and maintenance received $1,174,393 through the federal Recreational Trails Program.

Concessions (privately owned businesses that contract to operate facilities in state parks) generated more than $13 million in gross sales with a return of $1.1 million to the state in 2008.

Work continued on **general management plans,** which include various chapters that guide all aspects of the park or site. Fifteen cultural resource management plans have been completed and 31 are in the process of being written; 17 natural resource management plans are complete and 26 are in process; 27 interpretation plans are completed and 23 are in process.

A new **systemwide trail inventory,** mapping and signing project was implemented to help improve consistency and information on trails in the state park system.

Civil War markers were installed and dedicated at seven locations. Markers are in production for seven other locations. Four Civil War flags were conserved and framed.

The governor announced the formation of a Civil War Sesquicentennial Commission. A new exhibit plan for the Missouri State Museum's commemoration of the **Civil War** was developed. A new Civil War traveling exhibit was developed.

The Missouri State Museum displayed **several new exhibits,** including one on Germans in Missouri, curiosities of the state, and one in commemoration of the 75th anniversary of the Civilian Conservation Corps in Missouri.

A new **Lewis and Clark Trailhead Plaza** and monument was dedicated in Jefferson City. This monument was a joint effort with the Department of Natural Resources, the Jefferson City Parks and Recreation Department, Missouri Department of Transportation and the Office of Administration.

The **Cultural Resource Fund** supported the conservation or assessment of 15 objects in Fiscal Year 2008. So far, eight object assessments or treatments are under way and 28 more are scheduled to be finished by June 2009. Projects include conservation of panoramic photographs at Missouri Mines State Historic Site showing historic mines and mills in the Old Lead Belt and assessments of two oil paintings at Watkins Woolen Mill State Park and State Historic Site.

A total of 102,654 artifact records have been entered into the **artifact database**. This is 51.3 percent of the estimated 200,000 objects in the division's artifact collection.

The Missouri Natural Areas Committee designated a major portion of Prairie State Park as **Regal Prairie Natural Area.** The natural area is now the largest of the state's prairie natural areas and recognizes it as one of the best remaining examples of native tallgrass prairie.

Ecological stewardship plans were developed for Morris State Park and Sandy Creek Covered Bridge to protect the natural features of eastern Missouri glades, Crowley's Ridge forests and the historic Malden prairie.

Several steps were taken to protect natural resources at **Pershing State Park.** A Section 319 Grant was secured for a gradient control structure to prevent the loss of Locust Creek from park boundaries. More than 200 acres were acquired from the cross-state pipeline construction as mitigation for the endangered Indiana bat. Work continued on a larger acquisition to help resolve major sediment and water flow issues.

Stakeholder meetings were held to develop projects and cooperation within four major **Conservation Opportunity Areas** that contain state parks: the Niangua Basin in Laclede, Dallas and Camden counties; Roaring River in Barry County; Thousand Hills in Adair County; and Current River in Shannon County.

Restoration planning process was completed with the U.S. Army Corps of Engineers to receive federal funding to accomplish wetland development and vegetation restoration at **Edward "Ted" and Pat Jones-Confluence Point State Park**. Work is scheduled to begin in spring 2009.

A memorandum of understanding between the department and the **Pershing Park Memorial Association** was finalized. The MOU enables the association to kick off their fund-raising effort to establish a museum on the grounds of Gen. John J. Pershing Boyhood Home State Historic Site.

Communication and interaction continued between the department and associated **American Indian groups**. This included supporting an education resource exchange project with tribal educators and several special events at the Missouri's American Indian Cultural Center at Van Meter State Park.

In the day-use area between the railroad corridor and the Meramec River at **Castlewood State Park,** a new rule was established to eliminate rowdy behavior and trash. The rule prohibits alcohol and establishes a carry-in/carry-out trash zone.

The Neighborhood Archaeology Project in cooperation with the University of Missouri-St. Louis and archaeologist Tim Baumman, Ph.D., continued at **Scott Joplin State Historic Site.** This year's dig disclosed privies used in the back of the house dating as late as 1949.

A new passage was discovered in **Onondaga Cave** in Onondaga Cave State Park during a cave restoration project. After removing debris, a 400-yard long passage was discovered and it contained mammal bones. The bones are currently being identified by professional paleontologists.

At an event in September, Washington State Park celebrated its 75th birthday and the 75th anniversary of the **Civilian Conservation Corps,** which helped develop the park. A CCC reunion was held at Meramec State Park.

Several **podcasts** were developed and have been or will be available on the Web. They include ones for the Missouri State Museum, the Thomas Hart Benton murals in the Capitol, and the Braille Trail at Elephant Rocks State Park.

The west bank of Knob Creek (a portion of which is part of Fort Davidson State Historic Site) was designated as a recognized campsite of **Trail of Tears -** Hildebrank trek.

Important artifacts have been acquired. These include a sword of Gen. James McCormack, who was at the Battle of Pilot Knob**,** and a rare Wesson carbine. A washstand, bed and rocking chair that belonged to the Watkins family were donated to Watkins Woolen Mill State Park and Historic Site. A cancelled lithograph of Thomas Hart Benton was acquired for Thomas Hart Benton Home and Studio State Historic Site and a Washington press was acquired at Deutschheim State Historic Site.

Exhibits were replaced or updated. The exhibits in the visitor center at Bennett Spring State Park were replaced. A new exhibit on the ice age beaver called "The Largest Rodent" was installed at Mastodon State Historic Site along with a new exhibit panel on the proboscidian lineage of mastodons, mammoths and elephants.

2008 Major Improvement Projects

During 2008, many significant improvement and construction projects were accomplished within the state park system. Many were visible to the public while others included infrastructure projects to help protect the environment and provide a better overall service to the public. The following are some of the major highlights.

Roofs were repaired and replaced on various group camp buildings, shelters, shops and storage areas in various parks and historic sites, including the group camp at Knob Noster State Park. Other specific projects included roofs on the Burfordville covered bridge, Bollinger mill, tobacco barn at Weston Bend State Park, structures at Current River State Park, Katy depot at Sedalia, and the CCC barn at Washington State Park.

Remodeling and renovation projects included the dining lodge at Thousand Hills State Park, cabins at Sam A. Baker and Thousand Hills state parks, concession building at Big Lake State Park, the office at Battle of Athens State Historic Site, and the Union Hotel at Jefferson Landing State Historic

Site. An accessible ramp was constructed at Confederate Memorial State Historic Site and the residence at Rock Bridge Memorial State Park was remodeled into a park office.

Campground renovations included those at Table Rock and Bennett Spring state parks and Watkins Mill State Park and Historic Site.

A **pervious paver parking and turn-around area** was installed at Rock Bridge Memorial State Park; a new entrance turn-around area was constructed at Current River State Park; and a new entrance road was completed to provide safer access to the four-plex cabins at Roaring River State Park. Work began on a turn-around road at Ozark Caverns in Lake of the Ozarks State Park.

Projects to repair or replace water lines, **septic and sewer systems** at various parks and sites were completed. Design and construction was completed for a new water and sewer connection to the city of Eureka at Route 66 State Park. Work began on infrastructure repairs at Dr. Edmund A. Babler Memorial State Park.

Construction began on a new marina store at **Long Branch State Park.** The store is scheduled to be completed for the 2009 summer recreation season.

At **Nathan Boone State Historic Site**, a plaster project was completed to restore the interior of the homestead using historically accurate plaster methods.

At **Roaring River State Park,** the project to repair and replace in a historically accurate manner the stone work and railings on the CCC spring spillway and hatchery walkways was completed

A new boardwalk staircase was built on Lakeside Trail at **Cuivre River State Park** to provide access to Lake Lincoln from the campground.

The city of Hermann completed a connector trail at McKittrick that allows **Katy Trail State Park** users to access the new Missouri River bridge leading into Hermann. A connector trail was completed between the trail and Missouri Research Park near Weldon Spring.

A section of the Braille Trail at **Elephant Rocks State Park** was widened and repaved. The changes, which improve accessibility on the trail, were partially funded by federal Recreational Trail Program grants.

On Island Trail at **Ha Ha Tonka State Park,** a new boardwalk and steps were constructed to Balanced Rock and a new footbridge was built over the mill race.

At **Ha Ha Tonka State Park,** a Springfield grotto donated materials and labor to assist with repairs that included removal of a wall and construction of a bat-friendly gate for River Cave. A portion of old stone wall into the entrance of the cave had fallen, allowing access to the cave.

A new storage and shop building were built at **Harry S Truman Birthplace State Historic Site.**

Old **wooden playgrounds** were replaced at Bennett Spring, Lake of the Ozarks, Lewis and Clark, Hawn and Washington state parks.

The design was completed and a construction contract was awarded for repair of the swimming pool at the outdoor education center at **Dr. Edmund A. Babler Memorial State Park.**

The store at **Lake Wappapello State Park** was enlarged allowing more room for souvenir and camp commodities.

State Historic Preservation Office

The State Historic Preservation Office (SHPO) helps identify, evaluate and protect Missouri's cultural resources. Accomplishments in 2008 include the following:

SHPO 40th Anniversary -- At the November meeting of the Missouri Advisory Council for Historic Preservation, current and former staff members, past and present council members and preservationists from around the state attended a celebration to mark the 40th anniversary of the founding of the Missouri State Historic Preservation Office. Among the attendees at the celebration were Joe

Jaeger, parks director when the program was created; Orville Henderson, first director of the program; and Booker Rucker, former program director.

New Statewide Preservation Plan -- In 2008, Missouri engaged in a variety of efforts to revise and upgrade Missouri's statewide preservation plan. Public meetings were held throughout the state in the spring of 2008 to obtain public input on preservation priorities and on possible revisions to the existing plan. Surveys were sent to preservation partners to obtain additional input from stakeholders and input was also obtained from an on-line survey. The new plan was submitted to the National Park Service at the end of 2008.

Missouri Tax Credits -- Missouri's 25 percent rehabilitation tax credit continued to be utilized in 2008. Since the bill was enacted in 1998, there has been a significant private investment in the state as a result of state credits. Last year, 337 projects were completed using the state credits and total private investment leveraged by the credits exceeded $857 million. Since the program began 11 years ago, more than 1,482 buildings have been rehabilitated and the total invested in Missouri tax leveraged projects in the 11-year period exceeded $4.1 billion.

National Register of Historic Places -- Fueled largely by the historic preservation tax credits, the program continued to see increased activity in the National Register of Historic Places. Last year, 70 new listings were added to the register representing 1,803 individual properties. Staff prepared an in-house National Register district nomination for the city of La Plata.

Inventory -- Work continued on efforts to scan and digitize the program's inventory records and files. A major focus has been the development and implementation of a Geographic Information System (GIS) layer for the storage of information related to cultural resources. This effort has increased the ability of agencies and planners to have information on sites early in the planning process, which is of tremendous benefit in carrying out the agency's Section 106 responsibilities. This has been a cooperative effort with the Missouri Department of Transportation (MoDOT) and several other agencies, such as the U.S. Forest Service and the U.S. Army Corps of Engineers.

Certified Local Governments Program -- The Certified Local Governments (CLG) program continues to grow. Three new communities (Boonville, Cottleville and Warrensburg) were added, bringing the CLG total to 46 communities. The program continues to host training by way of the annual CLG Forum, which is held each year for local commissioners and staff.

Native American Issues -- With assistance from the National Park Service through a NAGPRA (Native American Graves Protection and Repatriation Act), SHPO hosted several follow-up meetings to the first Native American Workshop held in Springfield last year. These meetings brought several tribes that had been unable to attend the three-day meeting held last year. The program also partnered with the Missouri National Guard on a number of other tribal meetings.

Missouri Heritage Properties Program -- The Missouri Heritage Properties Program is a new state initiative to provide funding to assist in the preservation of historically significant publicly owned buildings. The first two rounds of grants targeted historic courthouses. The first round of grants for $500,000 went to 11 communities. The second round of grants for $1 million went to 18 communities. Funds for the program come from the state's Non Resident Athletes and Entertainers Tax. Response to the program has been exceedingly positive.

Awards and Recognitions in 2008

Many individuals and groups received awards or were recognized in some way during 2008.

Kenneth Jones, a park maintenance worker at Missouri Mines State Historic Site, was named the **Missouri Department of Natural Resources** February 2008 **Employee of the Month.**

Jim Gast, natural resource manager at Rock Bridge Memorial State Park, was named July 2008 **Employee of the Month** by the **Missouri Department of Natural Resources.**

Steven Almond and Ernest Libby, park maintenance workers in the Northern Parks District, were named October 2008 **Employees of the Month** by the **Missouri Department of Natural Resources.**

The Missouri Park Association (MPA) recognized five employees with **Employee of the Year Awards**: Danny Jaco, Lake Wappapello State Park, was the field employee; Laura Hendrickson, Pomme de Terre State Park, was the facility manager employee; Russell Burge, Big Lake State Park, was the maintenance/construction employee; Don Stier, Planning and Development Program, was the central office employee; and Larry Webb, Ha Ha Tonka State Park, was the interpretation employee.

Seven interpreters from the division were recognized for outstanding work at the **National Association for Interpretation** conference. Several of the awards were from 2006 but were just presented at this year's conference. The following received awards: Chandra Reiger, Prairie State Park, received the Richard Baldauf award for Outstanding New Interpreter for 2006. Cyndi Cogbill, Prairie State Park, was named Distinguished Professional Interpreter for 2006 and received the Bob Jennings Meritorious Service Award. Tiffani Martin**,** Onondaga Cave State Park, received the Outstanding Interpretive Site Publication award for 2006. Eugene Vale, Resource Management and Interpretation Program, received the Outstanding Interpretive Article award for 2006. George Kastler, Resource Management and Interpretation Program, received and Fellow and Lifetime Achievement award for 2006. Michelle Soenksen**,** Sam A. Baker State Park, received the Best Presentation at Workshop award for 2008.

The following individuals were honored with the department's **Division of State Parks Masterpiece Awards** in the year 2008. Spring awards were presented to the following: William "Bill" Shannon, Ha Ha Tonka State Park; Gary Parker, Big Lake State Park; Terry Cobb, Arrow Rock State Historic Site; Krista Kennon, St. Joe State Park; Art Hebrank, Chris Warren and Ann Hampton, Missouri Mines State Historic Site; Brick Autry, Fort Davidson State Historic Site; Ann Nickell, North Construction Unit; Brant Vollman**,** Heather Rudy and Amy Richards, Resource Management and Interpretation Program; Steve Hayden, State Park Ranger Program; Mike Marlar, volunteer at St. Joe State Park; and Kevin Bolling, Dusty Reid, Randall Norman, Lloyd Brotherton and Cheyne Matzenbacher, Roaring River State Park.

Fall Masterpiece Award winners follow: Dakota Russell, Dave Roggensees and Jim Peters, Nathan Boone Homestead State Historic Site; Ben Sapp, David Herigon, Jeffrey Crook, Archie Veers, Bradford Harrison, Branden Neer and Douglas Buie, Mark Twain State Park; Linda Zink and Tom LeRoy, Watkins Woolen Mill State Park and State Historic Site; Mark Bowers, Route 66 State Park; Donna Allen and Randy Quade**,** Bollinger Mill State Historic Site; Lee Haines and Chadd Thomas**,** Hunter-Dawson State Historic Site; Kevin Cheaney and Joe Trip, Fort Davidson State Historic Site; William Miller, Felix Vallé House State Historic Site; Larry Mayfield, Mike Morelock and Eric Bonnell, seasonal employees; Larry Bodine, Jane Lale and Ralph Bray, Planning and Development Program; Connie Schmidt, Visitor and Facility Services Program; Sgt. Gabriel DuMond, State Park Ranger Program; Doug Rusk and Paul Jeffreys, Stockton State Park; John Cunning, Resource Management and Interpretation Program; Jim Warnol, Statewide Construction Crew; Rick Brown, Dillard Mill State Historic Site; Bruce Ketchum, Deutschheim State Historic Site; Kim Burfield, Ozarks District; Kyle Scott, Jimmy Rhodes, Perry Vaughn, Alex Frieden, Daryn Bowman, Debra Martin, Haley Eisenberg, Mindy Jennings and Lisa Cay, Wakonda State Park; Steve Almond and Ernie Libby, Northern Parks District; Danny Grant and Larry Owens, Aerial Crew; and Roger Boyd, Mike Saltzgaver, Joanne Bryant, Ronnie Harrison, Dason Justice, Matt Morrow, Michael Brennan, Curtis Jenkins, Doug Toops, Kelly Bryant, Burr Brown and Bonnie Ensminger, Battle of Athens State Historic Site; and Glenda Hicks and Brenda Sweaney, Bennett Spring State Park.

Bruce Schuette**,** Cuivre River State Park, received the **Conservation Award** from the **St. Louis Audubon Society** for his work at the park, including extensive prairie and woodland restoration, coordination of the park's wild area management and natural resource management plans, and the most detailed and comprehensive wildflower record of any state park.

2008 SUMMARY

Number of Sites: 85 state parks and historic sites and the Roger Pryor Pioneer Backcountry
Number of Acres: 144,198 acres in parks and sites and 60,000 acres in Roger Pryor Pioneer Backcountry
Visitation: 15,676,557
Employment: 598.35 classified employees and 116.36 seasonals

Financial Information for Fiscal Year 2008

- Total operation and capital improvement expenditures (less fringe benefits) $39,237.783
- Revenues from operations - $7,573,423
- Revenues from dedicated sales tax - $42,034.846
